

*Learn the basics of flight
and get immersed into the wonderful world of aviation!*

Program Description

At GFA we offer a combination of engaging, entertaining, and educational programs. Our program covers the major topics of flight and aviation, including the history of flight, physics of flight, aircraft systems, navigation, and more. These programs will allow teenagers ages 12-16 to get a glimpse into the world of aviation.

Along with classroom time involving flight and aviation theory, students will spend time, in our state-of-the-art Boeing 737NG simulator. The Boeing 737NG is one of the most popular aircraft ever made, and is represented in painstaking detail. The students will also use the Cessna 172 simulator, replicating one of the most popular general aviation and training aircraft.

Program Goals

Our program offers the ability to gain knowledge in the exciting world of aviation. Each individual will learn the basics of flight and the history of flight. The students will develop collaborative skills with one another, learn to function under pressure and even practice math and physics in a very new and exciting way. The highlight of this program will be making a complete simulated solo flight - takeoff, climb, cruise, descent, approach and landing (just like real pilots practice in the real world) and then you get our GFA wings!

Students will get to really feel what it's like to be a pilot. Who knows, they might fall in love with it just like we did!

This program delivers a STEM learning experience, along with high-flying fun and adventure.

Materials, Supplies and Equipment

We use our two state of the art simulators. The classroom sessions will take place in our briefing room where we will discuss, demonstrate and calculate the art of flight. These sessions will be followed by practice flights in the simulators, where students will get to practice concepts right from the captain's seat.

This program is limited to only 10 students!

Program Schedule & Details

- * The program will begin on 02/26/2019 and end on 05/30/2019.
- * This program will run **twice** a week, on Tuesdays and Thursdays.
Our starting time is: 06:30 PM and class ends at 08:00 PM.
Both sessions per week will be 90 minutes long.
- * The cost of each session is \$35. There are a total of 28 lessons for a total program cost of \$980.
- * The registration fee is \$40.00 and is non-refundable.
- * The acceptable age range is from 12yrs. to 16yrs. old.
- * Our location is at **609 Neponset St., Suite 2, Canton, MA 02021**
