

The Basics of Flight A Glimpse into the World of Aviation

Description

We offer a variety of engaging, entertaining, and educational programs. These activities will cover the major topics of flight and aviation, including: the history of flight, the physics behind flying, aircraft systems, navigation, and more. All programs are suitable for children and teenagers ages 12-16.

Along with classroom time learning about flight and aviation, students will get to fly in our state-of-the-art Boeing 737NG simulator. It models one of the most popular aircrafts ever made in painstaking detail. Participants will also use our Cessna 172 sim, which is an exact replica of one of the most popular general aviation and training aircrafts.

Goals

Our program offers: the ability to live in the exciting world of aviation, understand the basics of flight and develop important real-world skills, such as; collaborating, handling pressure, assuming responsibility and practicing mathematics and physics in a fun way. The culmination of this program will be embarking on a complete solo flight. That means taking off, climbing, cruising, descending, approaching and landing, just like pilots practice in the real world.

Students will get to feel what it's like to be a pilot. They may even fall in love with flying just like we did!

Don't forget: this program delivers S.T.E.M. learning through a high-flying fun experience.

Materials, Supplies and Equipment

We will use our state-of-the-art simulators. The classroom sessions will take place in our briefing room where we will: discuss, demonstrate and calculate the art of flight. These sessions will be followed by practice flights in both simulators, where students will get to understand piloting concepts right from the Captain's seat.

Keep in mind: this program is restricted to only 10 students!

Program Scheduling & Details

- * Start Date: 2/26/19
- * End Date: 5/30/19
- * Run Time: Tuesdays and Thursdays from 6:30 PM to 8:00 PM
- * Session Length: 90 minutes or 3 hours each week
- * Cost: \$288 plus tax per month, or \$960 plus tax in total
- * Registration Fee: \$40 plus tax and is non-refundable
- * Age range: 12-16.
- * Location: 609 Neponset St., Suite 2, Canton MA 02021
